

PLATE FIXING HOLES

NOTES

1. All dimensions in millimetres. Datum is the lower-left corner of the plate; X right, Y up, viewed from the side the demo board mounts on.
2. Hole positions are tabulated rather than dimensioned individually: there are too many to put on the view without it becoming unreadable.
3. The three PMOD envelopes are not machined features. They mark where the Pmod host pin fields end up, which is the same place for every board revision. That is the point of the plate.
4. 6 further note(s) omitted for space; the full set is in the data module this sheet was generated from.

SOURCES

1. Derived from: data/tinytapeout_boards.py
2. Pmod host pitch:
