NOTES

- Viewed from the component side.
- Phantom outline is the Digilent Pmod HAT Adapter fitted on the 40-pin GPIO header; its mounting holes coincide with this board's.
- Hole IDs are assigned by this drawing and mean the same hole on every Raspberry Pi sheet.
- The Raspberry Pi 3 Model B and Raspberry Pi 3 Model B+ drawings agree on every hole and connector position, so one sheet covers both.
- The 40-pin GPIO header position is fixed by the Raspberry Pi HAT specification, so it is the same on every Raspberry Pi sheet.
- Design keep-outs to 6.2 mm diameter around every mounting hole, per the Raspberry Pi HAT specification; KEEPOUT gives what this model's own drawing shows.
- Pmod host JC overhangs the lower edge, over the HDMI and power connectors. Fit the two standoffs opposite the 40-pin header, as Digilent's manual warns, so JC's pins cannot touch the HDMI shell. HDMI connectors are not drawn.

NOTES (continued)

- Pmod HAT Adapter host positions are DERIVED, good to about +/-0.75 mm; drawing ACC-HAT-PMOD has the derivation.
- Assembled envelope, connector overhang included: 87.00 x 56.60 mm.
