

**END VIEW, RJ45 END**

### FRONT ELEVATION

## PLAN

### FIRST ANGLE PROJECTION

**ENVELOPE**

| DIMENSION      | mm    |
|----------------|-------|
| Overall length | 80.00 |
| Overall width  | 30.00 |
| Overall height | 24.00 |

### FEATURES (PLAN VIEW)

| FEATURE                               | X EXTENT       | Y EXTENT       |
|---------------------------------------|----------------|----------------|
| RJ45 PoE input, moulded into the body | 64.00 to 80.00 | 6.50 to 23.50  |
| Output cable exit                     | 0.00 to 3.00   | 12.00 to 18.00 |

## NOTES

1. All dimensions in millimetres. Plan datum is the lower-left corner of the body envelope, X along the length, Y across the width, Z up.
2. First-angle projection. The plan is the view from above, placed below the front elevation; the end view is the view from the RJ45 end, placed to the left of it.
3. The RJ45 aperture drawn in the end view is a standard 8P8C jack envelope positioned centrally, since the vendor does not dimension it. Treat it as indicative to about +/-1.5 mm.
4. NO SINGLE OFFICIAL SOURCE. These are near-identical clones from several factories. Two independent sources agree on an 80 mm long body: DSLRKIT quote 80 x 27 x 22 mm and Adafruit measure 80 x 30 x 24 mm.
5. The envelope drawn here is the larger of those two, 80 x 30 x 24 mm. Design any cradle to that, and allow for gigabit variants in a longer case, up to about 95 mm.
6. No mounting holes: the case is a glued plastic clamshell, so a bracket has to clamp or strap the body.

## SOURCES

1. DSLRKIT active PoE splitter: <https://www.amazon.com/DSLARKIT-Active-Splitter-Ethernet-Raspberry/dp/B01H37XQP8> - Vendor text: "Body size: 80 x 27 x 22 mm", weight 55 g, DC cable 165 mm, RJ45 plug cable 155 mm.
2. Adafruit 3785, equivalent unit: <https://www.adafruit.com/product/3785> - "Body dimensions: 80mm x 30mm x 24mm", weight 54.1 g, each lead 205 mm.
3. AliExpress listings: AliExpress items 1005006389914897, 1005005523161215, 1005009263116567 - Most listings quote packaging rather than body size. The one plausible body figure seen was 95 x 28 x 24 mm, for a gigabit variant in a longer case.

## GENERIC POE SPLITTER TO MICRO-USB

IEEE 802.3af, 5 V output, sealed plastic body
